Public Comment:

A community member asked what was the biggest lesson learned from last year and what was the name of the air quality monitoring program truck?

- Ms. Harrison responded the hardest part of providing these services was regarding the monies needed and that it was unfortunate the way the system was set up to require payment from organizations up front that were already short on resources. The low-income organizations then have to wait to receive their money back from the grantees.

Executive Director Pharr updated Chair Posey regarding the presentation by Cecilia MartinezSandoval regarding the Thurgood Marshall Academic High School Prom, which will be held on May 9th. The school has made a request to collaborate with the Southeast Community Facility Commission. She advised BaySpark is also seeking collaboration with upcoming events at the Center.

Chair Posey called for a Motion to approve collaboration with BaySpark.
