# Making Upgrades

December 7, 2020

## Baker, Sutter Streets Water Main Replacement Project (*coming soon*)

**What:** The San Francisco Public Utilities Commission (SFPUC) will be installing a new water main pipe on Baker Street from Geary to Broadway and Sutter Street from Divisadero to Presidio (*see map on back*). As construction nears notices with more detail about schedule, traffic & parking challenges etc., will be sent out.

**When:** Construction is anticipated to begin in *early 2021* with an estimated duration of 1 year and 6 months.

**Why:** The existing pipelines are some of the oldest water delivery pipelines in the system (ages range from 1872 to 1904). Replacement of these pipelines is necessary to maintain water delivery.

**What to expect during construction:** Parking will be restricted during construction hours. We apologize for this inconvenience and assure you that parking will be restored as soon as possible.

Please see posted barricade signs for exact workdays, hours, locations, as they may vary depending on construction task.
