

## 30 DAY CONSTRUCTION NOTICE

# WATER AND SEWER SYSTEM IMPROVEMENT PROJECT

## Laidley Street and Various Side Streets

**When:** Construction is anticipated to begin in April 2023 with completion anticipated by December 2024. Weather and construction issues could impact the schedule. General workdays and hours (weather permitting) are Monday – Friday, 8:00 a.m. to 5:00 p.m. Some night and weekend work may be required.

**Where:** Water work will occur on: Laidley St from Castro St to Harper St; Castro St from Chenery St to Sussex St; Roanoke St, Mateo St, and Miguel St from Laidley St to Bemis St; Fairmount St from Laidley St to Miguel St; Miguel St from Bemis St to Beacon St; Bemis St from Castro St to Miguel St.

Sewer work will occur on: Laidley St from Mateo St to Miguel St; Bemis St from Roanoke St to Mateo St.

**Why:** To ensure reliable water and sewer service in your neighborhood, we are replacing pipes that are approaching the end of their useful life and installing new water and sewer pipelines.

**What to expect during construction:** Water and sewer main installation is done in phases, so work will not be happening on your block for the entire project duration. There may also be periods of inactivity during the work dates. Local access for residents will be provided at all times during work hours, though there may be some slight delay to enter or exit your property/driveway to allow for crews to create a safe path of travel.

Contractor will place “no parking signs” on street where construction will take place 72 hours in advance per San Francisco Municipal code. Parking is prohibited in the work zone only during construction hours.

Contractor will excavate a trench where new water or sewer main pipe is to be installed. There will be noise, vibration, dust, parking and traffic impacts in the work zone and some disruption to normal neighborhood activity.

Contractor will install pipe and refill the trench with special materials to protect the pipe. The contractor will temporarily pave the excavated area and return at a later date for the final paving. Temporary paving could be in place for weeks or even months on larger projects.

SF Water Department will connect new water main pipe to properties. This will involve a temporary interruption of water service. Crews will provide advance notice a minimum of 24 hours.

Once the entire project has been completed, final paving is performed. All equipment and materials are removed from street.

30 DAY CONSTRUCTION NOTICE

### Coming Soon in Your Area

The San Francisco Public Utilities Commission (SFPUC) has hired A. Ruiz Construction Co. & Associates, Inc. to replace pipes that are approaching the end of their useful life and install new water and sewer mains in your neighborhood. Aging pipelines are being replaced throughout San Francisco to ensure reliable water and sewer service across the city.
